Atlantic Optics, LLC. and Baseline Ophthalmic Systems Sign a Distribution Agreement

Wilbraham, MA – Atlantic Optics, LLC is excited to announced that they signed a distribution agreement with Heath Queen of Baseline Ophthalmic Systems to distribute the New Falck Medical Multifunction Device (FMAT1). This agreement assigns exclusivity to Baseline Ophthalmic Systems the following operating territories: Florida, Kentucky, and Ohio

About the Falck Medical Multi-function Device (FMAT1):

This revolutionary device is a result of over 18 years of development by Falck Medical, Inc. The device received FDA clearance 1 1/2 years ago and is now pursuing a nationwide presence through Atlantic Optics, LLC and their network of independent distribution. The FMAT1 is a slit lamp mounted, FDA approved for Tonometry, Ocular Pulse Amplitude, Tonography and Ophthalmodynamometry. The FMAT1 features use a patented single use disposable prism effectively blocks transmission of infectious disease and eliminates risk of transmission. Data can be exported to a numeric file in a format that can be imported into Electronic Medical Records. The FMAT1 was developed by Dr. Francis Y. Falck Jr., MD, PhD., MS of Mystic, CT. and is proudly made in the United States of America.

About Atlantic Optics, LLC:

Atlantic Optics, LLC was formed by David E. Clark to distribute sight saving and lifesaving devices to medical providers. Atlantic Optics, LLC is proud to offer the Falck Medical Multifunction Device (FMAT1) to ophthalmologists and optometrists in the US.
